Third-Party Advertising and Targeted Advertising

You may be provided with online advertisements of our products and services on third-party websites and mobile services that are tailored to you, for example, on the basis of information that you provide to us or a third-party website you are visiting, or of your browsing activity, purchases or interests. These types of tailored online advertisements may come through several sources, such as the following:

- We may share with our advertising service providers your non-identifying information that we have obtained from cookies and other tracking technologies on the Regeneron Sites.
- Some sites participate in online targeted advertising (this is also sometimes called re-target advertising or interest-based advertising). You can identify these sites by the “Advertising Choices” link in the footer. Our advertising network partners may place and use cookies on our websites and on other third-party websites to collect information about your activities in order to provide you with online advertisements that are based on your interests. When an online targeted advertisement is delivered to you, you will see an “Ad Choices” icon. Clicking on the icon or link will take you to a website where you can manage or opt out of the use of data about your browsing history that is used for the delivery of online behavioral advertisements. If you opt out, you may still see advertisements online, including advertisements from us that are based on other information (e.g., based on the content of the page being viewed rather than your prior clickstream activity). In some cases, data may still be collected about your browsing activity by these third-party advertisers, but they will not use this data to deliver advertisements that are based on your past online browsing behavior. You can also opt out now by visiting youronlinechoices.com.
- Some web browsers may transmit “do-not-track” signals to websites with which the browser communicates. As of the effective date of this Privacy Policy, an industry standard has not yet been established on how to respond to these signals. Therefore, Regeneron does not currently respond to these signals. As discussed above, you can opt out from advertisers that use your browsing history to deliver online targeted advertisements by visiting youradchoices.com.

Regeneron is not responsible for the information collection, use, disclosure or security policies or practices of other organizations such as Facebook, Apple, Google, Microsoft, RIM or any other social media platform provider, operating system provider, wireless service provider or device manufacturer, including with respect to any personal data you disclose to other organizations through or in connection with our Social Media Pages.

Regeneron may provide the option for individuals to participate in polling activities. Additionally, Regeneron may monitor social media channels for mentions of our brand,

competitors, and products, which gives Regeneron an opportunity to track, analyze and respond to conversations about us on social media.

How Long Do We Retain Your Information?

We retain your personal data for the period necessary to fulfill the legitimate business purposes or uses outlined in this Notice, unless a longer retention period is required or allowed by applicable data protection law or to otherwise fulfill a legal obligation. We generally do not retain the information collected on the Regeneron Sites for longer than five years unless we have a need to retain it.
