

Regeneron.co.uk Cookie Policy

1. What is a cookie?

Cookies are small text files that are stored on the browser of your computer. They store certain information (e.g., site settings) which your browser may (depending on the lifespan of the cookie) retransmit to us upon your next visit to our Website.

Most browsers automatically accept cookies by default, but you can adjust the preferences in the browser of your computer or device to warn you each time a cookie is being sent, or to block some or all cookies. While you may still use the Regeneron Sites if you reject cookies, your ability to use some areas of the Regeneron Sites may be limited.

A cookie can temporarily store anonymous information about the use and users of a website. Some cookies are necessary, others allow customization and optimization of the content displayed, the collection of user preferences or the monitoring of the audience, website errors and the securing of access.

2. What cookies do we use?

Categories of cookies and tracking technologies that Regeneron may use:

Essential Cookies: These cookies are necessary for the website to function and cannot be switched off in our systems. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms. You can set your browser to block these cookies, but some parts of the site will not then work.

COOKIE NAME	COOKIE DESCRIPTION	COOKIE EXPIRY TERM (days)
OptanonConsent	This cookie is set by the cookie compliance solution from OneTrust. It stores information about the categories of cookies the site uses and whether visitors have given or withdrawn consent for the use of each category. This enables site owners to prevent cookies in each category from being set in the users browser, when consent is not given. The cookie has a normal lifespan of one year, so that returning visitors to the site will have their preferences remembered. It contains no information that can identify the site visitor.	365
CookieConsentPolicy	Used to apply end-user cookie consent preferences set by our client-side utility.	365

OptanonAlertBoxClosed	This cookie is set by websites using certain versions of the cookie law compliance solution from OneTrust. It is set after visitors have seen a cookie information notice and in some cases only when they actively close the notice down. It enables the website not to show the message more than once to a user. The cookie has a one year lifespan and contains no personal information.	365
LSKey-c\$CookieConsentPolicy	Used to apply end-user cookie consent preferences set by our client-side utility.	365

Performance Cookies: These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our site. They help us to know which pages are the most and least popular and see how visitors move around the site. If you do not allow these cookies we will not know when you have visited our site, and will not be able to monitor its performance.

COOKIE NAME	COOKIE DESCRIPTION	COOKIE EXPIRY TERM (days)
_ga_xxxxxxxxxx		365
_ga	This cookie name is associated with Google Universal Analytics - which is a significant update to Google's more commonly used analytics service. This cookie is used to distinguish unique users by assigning a randomly generated number as a client identifier. It is included in each page request in a site and used to calculate visitor, session and campaign data for the sites analytics reports. By default it is set to expire after 2 years, although this is customisable by website owners.	365

3. How to control cookies

You can block the use of cookies or remove cookies that are already installed on your browser. We draw your attention to the fact that disabling cookies may prevent you from accessing certain features on our website and other websites. To find out more about cookies, including how to control and/or delete cookies, visit www.aboutcookies.org or www.allaboutcookies.org.

You can also manage many cookies used for online advertising via the consumer choice tools created under self-regulation programs in many countries, such as the US-based [YourAdChoices](#), the Canada-based [AdChoices](#) or the EU-based [Your Online Choices](#). You can change your cookie preferences at any time by clicking "Privacy Preference Center". You can then adjust the available sliders to 'On' or 'Off', then clicking 'Save and close'. You may need to refresh your page for your settings to take effect.
